1 REFERENCE CONTEXT

a) Message from the Chairman of the Board of Directors

The introduction of the Consolidated Statement of a non-financial nature (hereinafter also "NFS" or "Non-Financial Statement"), in implementation of Italian Legislative Decree 254/16, has encouraged directors and company management to pay even more attention to the economic, social and environmental, internal and external impacts of the Group's activities in the short, medium and long term.

The global health emergency declared in January 2020 by the World Health Organisation has disrupted the lives of both people and companies, causing the slowdown or interruption of economic and commercial activities in multiple sectors.

The TXT Group has implemented multiple actions to most importantly safeguard the health of all its staff, as well as to safeguard business continuity in all the contexts in which it operates. The very rapid launch of *remote working*, favoured by continuous investments by the Group and the proactive management of the relationship with all stakeholders, has allowed to ensure business continuity while respecting the safety of all.

2021 was characterised by a recovery of the global economy as the easing of Covid-related restrictive measures favoured the acceleration of vaccination campaigns; the global economy is expected to grow by 5.9% and 4.4% in 2021 and 2022, respectively (International Monetary Fund estimates), after a 3.1% contraction in 2020. With the growth of the economy also driven by national support plans, there has been a significant increase in commodity prices and downturns in supply chains that have generated strong inflationary pressure exacerbated by the current military tensions in Ukraine.

The changed national and international social and economic scenarios require all operators to have a strategic vision which is increasingly inclusive of the three dimensions, in order to safeguard the expectations of all stakeholders and ensure continuity.

The TXT Group's development plan is therefore focused, in addition to its responsible business conduct, to its active contribution to the prosperity of the environment in which it operates, to the benefit of all its stakeholders.

2021 was characterised by a recovery of the global economy as the easing of Covid-related restrictive measures favoured the acceleration of vaccination campaigns; the global economy is expected to grow by 5.9% and 4.4% in 2021 and 2022, respectively (International Monetary Fund estimates), after a 3.1% contraction in 2020. With the growth of the economy also driven by national support plans, there has been a significant increase in commodity prices and downturns in supply chains that have generated strong inflationary pressure exacerbated by the current military tensions in Ukraine.

(Enrico Magni - Chairman of the Board of Directors)

b) Introduction

Italian Legislative Decree 254/16 implements Directive 2014/95/EU of the European Parliament and Council of 22 October 2014 governing the “disclosure of non-financial and diversity information by certain companies and large groups”.

TXT e-solutions S.p.A. (hereinafter “TXT”), according to that which is defined by Italian Legislative Decree 254/2016, is the subject required to prepare the Consolidated Non-Financial Statement for the year 2021, in that it is the:

- “Parent company” of a “large group” listed on the Milan Stock Exchange (Star segment) and therefore classifiable as a Public Interest Entity (PIE);
- During the current financial year the TXT Group (TXT e-solutions S.p.A. and integrally consolidated companies) has had an average number of employees exceeding 500; at 31 December 2021 it had total balance sheet assets of more than 20 million Euro.

This Non-Financial Statement has been prepared in compliance with Italian Legislative Decree 254/2016 and subsequent integrations. The methodological note (section 5.a) illustrates the principles adopted for the preparation of this document and represented by the *GRI Standards* published by the *Global Reporting Initiative* (hereinafter “GRI”) in 2016.

c) The year in brief

In 2021 the TXT Group operated through two Divisions:

- **TXT Aerospace, Aviation & Automotive:** focused on software for the aerospace, aeronautics and automotive industry and the digitalisation of industrial production processes, where it offers specific products and specialist engineering services;

- **TXT Fintech:** offers software testing and quality services for banking companies, as well as compliance and digital payment products.

TXT e-solutions is an international leader in the provision of software products and strategic solutions in dynamic markets that require a high degree of specialisation and a capacity for innovation. TXT is focused on software for the aerospace, aeronautics and automotive sectors, where it offers specific products and specialist engineering services, and for the banking sector, where it focuses on software testing and quality services. Listed on the Milan Stock Exchange since July 2000 and inserted in the Star segment, TXT has its head office in Milan and offices in Italy, Germany, France, the UK, Switzerland and the United States.

2020 was characterised by the global spread of the COVID-19 virus, which caused a global pandemic with strong impacts on all sectors of the economy. TXT faced the crisis by immediately instituting remote working for all Group staff, which at 31/3/2020 accounted for 98% of operating resources. A significant backlog of licenses sold in 2019, an excellent net financial position and, as mentioned above, continuity in the delivery activity certainly mitigated the impact of the crisis on the TXT Group. Among the market sectors in which TXT operates, civil aviation was the most impacted, with airlines forced to suspend flights with the consequent repercussions also on aircraft manufacturers. IATA estimated damages in the sector reaching about 100 billion. In 2020, several customers in this sector postponed the approval of new contracts in addition to delays in the payments of invoiced services. Fortunately, our customers did not cancel contracts they had already signed; at most the development plans were revised. During the first phase of the pandemic, TXT initiated union agreements to mitigate any costs on business interruptions, with the activation of the special wages guarantee fund (CIG) for some Group company workers.

The spread of the COVID-19 virus continued in 2021; TXT addressed the crisis by continuing with remote working for all staff.

On 27 May 2021, TXT e-Solutions S.p.A. subscribed a share capital increase in the start-up ReVersal S.p.A., obtaining an equity investment equal to 51% of the share capital of the start-up.

On 29 July 2021, TXT e-solutions S.p.A. executed the final contract for the acquisition of 100% of the German company TeraTron GmbH. The data have been consolidated from 1 August 2021.

On 29 November 2021, TXT e-solutions S.p.A. executed the final contract for the acquisition of 100% of the company LBA Consulting S.r.l. The data have been consolidated from 1 December 2021.

On 29 November 2021, TXT e-solutions S.p.A. executed the final contract for the acquisition of 100% of the company Novigo Consulting S.r.l. The data will be consolidated from 1 December 2021.

On 28 December 2021, TXT e-solutions S.p.A. executed the final contract for the acquisition of 100% of the company Quence S.r.l. The balance sheet figures have been consolidated from 31 December 2021, while the income statement figures will be consolidated from 1 January 2022.

Detailed information on the activities carried out by TXT and its subsidiaries, on the performance for the year and on the results achieved in terms of economic and financial performance and the new corporate structure is provided in the section of the Annual Financial Report.

d) Corporate Information

The parent company TXT e-solutions S.p.A. is a legal entity organised according to Italian Law. The ordinary shares of TXT are listed on the electronic circuit of the Milan Stock Exchange - MTA - STAR segment. In 2021, the registered office of TXT e-solutions S.p.A. transferred to Cologno Monzese, in Via Milano 150.

TXT does not belong to any category associations.

e) Reporting framework

The reporting framework, consistently with what is required by the Decree, coincides with that of the Consolidated Financial Statements (except as detailed below) and includes the parent company TXT e-solutions S.p.A. and its subsidiaries PACE GmbH (Germany),

TXT Next Sarl, TXT Next Ltd, TXT e-solutions Sagl, PACE America Inc., Cheleo S.r.l.¹, Txt Risk Solution S.r.l.², Assioma.Net ³S.r.l. and Assiopay S.r.l., HSPI Spa and MAC Solutions.

The companies TXT Next Sarl, TXT Next Ltd, TXT e-solutions Sagl and PACE America Inc. were excluded from the scope of environmental reporting, consistent with the provisions of art 4 of Italian Legislative Decree 254/2016, according to which the Consolidated Statement can exclude from the Statement those companies which, even if included in the consolidated financial reporting, are not necessary for an understanding of the Group's business, its development, its results and the impact produced by the business itself. In fact the socio-economic and environmental impacts of these companies are considered insignificant because of their low impact in terms of the number of employees (40) and type of business (non-productive).

This NFS does not report data on the following acquisitions of 2021: Reversal, TeraTron GmbH, LBA Consulting, Novigo Consulting and Quence.

f) Stakeholders

Stakeholders are the people and organisations recognised as such in TXT's economic and other initiatives: they fall within the company's orbit and are interested in its services and the effects of its production activities. TXT has identified the following stakeholder groups as relevant:

- **Customers**

They constitute the Group's main asset, and include aeronautical companies, aircraft component manufacturers, airlines, car companies, high-tech companies, banks and national and international financial companies.

¹ Cheleo S.r.l., a company acquired by the TXT Group in the second half of 2018, has been included in the scope of reporting since 1/1/2019.

² Txt Risk Solution S.r.l., a company acquired by the TXT Group in the second half of 2018, has been included in the scope of reporting since 1/1/2019.

³ The data relating to Assioma.Net S.r.l. and Assiopay S.r.l. refer to the period 1/5/2019 - 31/12/2019, according to the consolidation dates of the same.

- *Employees and external staff*

They represent the Group's strength and excellence, being the source of the professional, technical and operational resources that are the subject of the Company's activities. TXT recognises the importance of establishing and maintaining long-term relationships based on loyalty and trust.

- *Lenders (banks and shareholders)*

The Group's primary objective is to create value for the Company and its shareholders by pursuing long-term growth in profits.

- *Local communities*

TXT considers the local community an important stakeholder, as it is affected by the positive and negative impacts of its business. This is why TXT seeks to reduce any negative impact as far as possible and to increase positive impacts through technological progress, the development of knowledge and skills, growth in jobs and financial support for certain social activities.

- *Sectoral or local interest groups*

TXT is committed to providing its stakeholders with timely, clear, complete and transparent information on its activities and performance, without favouring any interest group or individual, thus guaranteeing fair competition and complying with current regulations.

- *Suppliers*

The high value of TXT's services is also based on selected relationships with suppliers, based on the pursuit of maximum competitive advantage. Suppliers are selected for their ability to provide high-quality goods and services.

The Code of Ethics available online (<https://www.txtgroup.com/it/governance/statuto-regolamenti-e-politiche/>) describes in detail and complements the relations between TXT and its stakeholders.

TXT considers it important to understand the needs, demands and expectations of stakeholders and to respond appropriately. The company has implemented a structured process to classify stakeholders according to their level of interest in the organisation's activities and their ability to influence company decision making.

The company has therefore constructed a matrix and positioned each stakeholder on a scale of importance from 1 to 5, with respect to two variables: *influence on the company* and *interest in the company*.

No special issues were highlighted by the stakeholders relative to the Group in 2021.

g) Materiality analysis

In accordance with Italian Legislative Decree 254/2016 and other sources⁴, TXT has identified the issues to help ensure that the company's activities, performance, results and impact on the non-financial issues indicated in the Decree are understood.

In order to identify the issues that are relevant to the company, TXT has carried out analyses seeking to understand the main pressures from its stakeholders and the company's priorities with reference to the five areas of Italian Legislative Decree 254/2016 (environmental, social, staff-related, respect for human rights, and the fight against bribery and corruption), considering a mix of parameters both inside and outside the Group. Specifically, the analyses carried out to identify the main aspects related to the five areas of Italian Legislative Decree 254/2016, in which the company invests resources and pays most attention, are the following:

- Analysis of global sustainability trends: main non-financial aspects taken into consideration by market regulatory authorities who have published guidelines for sustainability reporting, sustainability ratings and international organisations;
- Analysis of practices in the sector: non-financial aspects identified as relevant in the sector to which TXT belongs;
- Analysis of company priorities: through interviews with reference company managers and analysis of the main company documents.

The final result of this materiality analysis allowed identifying the non-financial aspects most relevant to TXT and, therefore, subject to reporting in the Non-Financial Statement.

⁴ See, for example, the Consob Explanatory Report of 19-1-2018 to the "Regulation for the implementation of Italian Legislative Decree 254 of 30 December 2016 concerning the reporting of non-financial information".

The issues identified in these areas are monitored not only for the purposes of the Non-Financial Statement but also as part of the corporate governance system. Reference in this regard should be made to the documents available on the TXT Group website (www.txtgroup.com), and more specifically:

- Report on corporate governance and ownership structure
- Code of Ethics
- Corruption Prevention Policy
- Organisational Model 231/2001
- Environmental Policy

The analysis carried out for the 2020 NFS was updated in 2021 to reflect the progress of the corporate business, the expectations of its stakeholders and the context of operation, and the aspects identified in the 2021 NFS were confirmed. The following table illustrates the relevant aspects identified and reported, subdivided by GRI Standard used:

Description of the aspect	GRI standard
Anti-corruption	GRI 205
Anti-competitive behaviours	GRI 206
Taxes	GRI 207
Energy	GRI 302
Emissions	GRI 305
Environmental compliance	GRI 307
Employment	GRI 401
Occupational health and safety	GRI 403
Training and education	GRI 404
Respect for diversity and equal opportunities	GRI 405
Non-discriminatory behaviours	GRI 406
Political contributions	GRI 415
Customer privacy	GRI 418
Social and economic compliance	GRI 419

We have focused our attention on the supply chain, as the products and services sold by TXT are mainly the result of activities carried out by internal staff. TXT has no strategic suppliers or such as to significantly influence its choices or business model. For this reason, the supply chain is also represented, to a large extent, by commodities/utilities suppliers, in particular providers of connectivity and hardware/software services. This assumption has led management not to consider the GRI reporting aspects closely linked to the

supply chain as relevant. In general, to date, no issues have been identified that have a significant impact on entities external to the Group.

2 RISK ANALYSIS

TXT e-solutions S.p.A. has a Control and Risks Committee that operates autonomously and independently so as to safeguard the company's integrity.

Among the functions performed, the Committee supports the Board of Directors in the activities relating to the Internal Control and Risk Management System. It periodically checks the adequacy of the System and its functioning, ensuring that the main corporate risks are identified, managed adequately and that they are compatible with the Company's strategic objectives.

Every year TXT prepares a compliance, financial, operational and strategic risk analysis within the company departments and related thematic areas which highlights the areas at risk and defines the necessary monitoring and control activities.

In addition, in light of Italian Legislative Decree 231/2001 on the administrative liability of companies, in 2008 TXT approved the "Organisational, Management and Control Model 231" to make the controls and procedures adopted within the Group as efficient and consistent as possible. The document also includes the Code of Ethics with binding rules and principles for directors, employees, consultants, external staff and suppliers.

The structure of the Organisational Model was fully updated in 2019 to be more effective in consulting and communicating with stakeholders.

The activities carried out by the Control and Risk Committee are supplemented by further activities, analyses, procedures and actions performed by other departments in the environmental and social field, as described below.

a) Definition of risks

TXT identifies and analyses the following non-financial risks within its business activities:

b) Environmental risk

TXT develops software and IT services to help improve its effectiveness in relation to environmental issues and applicable environmental regulations in order to prevent pollution and minimise negative impacts on the environment. TXT has identified the following environmental aspects and the risks connected with them as significant: energy consumption, atmospheric emissions and environmental compliance.

Applications of Italian Legislative Decree no. 254/2016	Risk identified	Description of the risk
	POTENTIAL RISK LINKED TO THE GROUP'S LIMITED LEVEL OF CONTROL OVER ENERGY EFFICIENCY MEASURES	Energy consumption is the main aspect of TXT activities with environmental implications. The absence of a programme to improve consumption efficiency, due in part to the inability to act in depth on buildings as tenants, may not allow the Group to benefit from a reduction in operating costs and in its atmospheric emissions.

Environment	POTENTIAL RISK LINKED TO THE ABSENCE OF MANAGEMENT AND REDUCTION PROGRAMMES FOR GREENHOUSE GAS EMISSIONS	For the TXT Group, greenhouse gas emissions are mainly linked to energy consumption and business travel. Increasing national and international pressures on this issue ensure that this risk is adequately managed through a careful analysis of the energy consumption responsible for greenhouse gas emissions.
	POTENTIAL RISK LINKED TO THE NON-TRANSPOSITION OF ENVIRONMENTAL LEGISLATION	In a constantly evolving context, companies are required to perform regular monitoring and to comply with environmental regulations. The absence of a specific department and/or designated contact person for environmental compliance could lead the TXT Group to run the risk of non-compliance with its obligations.

The company protects the environment by encouraging all employees to behave responsibly, at all levels, monitoring and continuously improving their environmental protection activities and reducing the various forms of pollution. TXT intends to prevent, mitigate and manage the above risks by defining and applying the Environmental Policy through the following actions:

Actions

- Responsible management of electricity, gas and water consumption in order to reduce consumption.
- Use of teleconferencing and videoconferencing technologies where feasible as an alternative to travel, to help reduce CO₂ emissions.
- Promotion of the use of recycled materials, as far as possible in the course of activities.
- Paying attention to paper consumption by reducing or eliminating printing whenever possible.
- Integrating environmental considerations into procurement processes.
- Paying attention to new opportunities for waste reduction, optimisation, recycling and reuse.
- Gradually replacing the company fleet cars with diesel engines with other cars with low climate-altering emissions, for example hybrid or electric.

TXT is committed to the success of this policy and has set up an environmental supervisory and promotional department to ensure compliance with environmental laws and regulations in force in all countries where the Group operates and that requires employees to report any non-compliance to implement an appropriate follow-up.

c) Social risk - staff-related - respect for human rights

Social risks vary according to social class, gender and age, but also depending on the context. Within the TXT Group, the protection of people from social risks is the main objective of the welfare policies and projects pursued.

TXT has identified the following social issues and related risks as relevant: employment, training and education, respect for diversity and equal opportunities, non-discriminatory behaviour, health and safety at work, anti-competitive behaviour, social and economic compliance, political contributions.

Applications of Italian Legislative Decree 254/2016	Risk identified	Description of the risk
Personnel Management	POTENTIAL RISK LINKED TO THE INABILITY TO ATTRACT QUALIFIED AND COMPETENT STAFF	It is crucial for the TXT Group to attract qualified and updated staff in order to provide quality software products and services and to ensure professional and high-quality employee behaviour. The inability to attract and retain qualified resources could have negative effects on the Group's current and future performance.
	POTENTIAL RISK LINKED TO A DETERIORATION IN STAFF SKILLS AND QUALITY LEVEL	The TXT Group considers it essential to ensure that its staff are constantly updated, both technically and professionally. The effectiveness of training plans is therefore very important for the Group. A reduction in the quality level of output and inadequate training programmes could have negative effects on the Group's current and future performance.
	POTENTIAL RISK LINKED TO THE POSSIBILITY OF THE GROUP FAILING TO COMPLY WITH DIVERSITY LAWS AND/OR REGULATIONS (INCLUDING FUTURE ONES)	An inadequate Group focus on diversity in the company could cause TXT to fail to take advantage of the wealth brought by the contribution of resources with diverse experiences, professional profiles, cultures and genders and be unready to comply with any legislation or regulation in this field.
	POTENTIAL RISK LINKED TO DISCRIMINATORY PRACTICES COMMITTED BY EMPLOYEES	The Group's limited level of control over the management of any episodes of discrimination could increase the risk of discriminatory behaviour among employees, with negative operational and reputational consequences for the Group.
	POTENTIAL RISK LINKED TO NON-COMPLIANCE WITH EXISTING HEALTH AND SAFETY LEGISLATION	The failure to comply with applicable regulations on health and safety at work could entail risks for the health of its employees and external staff and regulatory non-compliance, with negative effects on the Group, also in financial and reputational terms.

Social	POTENTIAL RISK LINKED TO THE ADOPTION OF UNFAIR COMPETITIVE PRACTICES	By operating in a highly competitive market, the TXT Group is potentially exposed to anti-competitive actions and behaviour by its competitors. At the same time, any reputational and financial damage for the Group could arise from commercial practices that are not in line with the company's ethical values or with regulations governing unfair competition.
--------	---	--

Monitoring, management and mitigation of social risks are implemented through the following actions:

Actions
<ul style="list-style-type: none"> • Partnership with local universities for the training of students and their integration into the working world. • Approval and implementation of the Diversity Policy of the Board of Directors. • Approval and implementation of the Diversity Policy of the Statutory Auditors. • Breaking down architectural barriers. • Università Cattolica project for the integration of students with disabilities into the working world. • Funding for the development of curricula and partnerships with universities in the IT sector. • Welfare programmes guaranteed by the National Collective Labour Agreement (CCNL) for the Metalworking Industry. • Additional health policies extended to the family. • Promoting the sense of belonging and well-being of workers. • Recreational events. • Work-related stress prevention. • Smart working. • Flexible hours.

d) Corruption risk

TXT adopts an approach of firm and absolute prohibition of any form of corruption. The Anti-Corruption Policy applies to all personnel of the various TXT Group companies who are required to follow the highest standards of proper behaviour and moral integrity to avoid situations in which both top management and partners are, or may appear to be, in conflict with their interests, with respect to the contractual or fiduciary obligations related to their position.

The company's Code of Ethics clearly and transparently defines the principles of corporate ethics considered of key importance for the Group's proper functioning, reliability and reputation, and therefore for the success of the company itself.

Following the application of Italian Legislative Decree no. 231 of 2001, TXT has adopted its own Organisational and Management Model in order to clearly and transparently outline the specific organisational, management and control structure, as well as to make it compliant with the provisions contained in the Decree and suitable for preventing the commission of crimes. A "Supervisory Body" has also been designated to supervise the application of the Model.

Every recipient of the Code of Ethics and the Organisational Model is responsible for the fight against corruption, not only to avoid any illegal act or crime, but also to ensure the highest quality and fair compensation as regards the services and goods provided and/or requested. This is why TXT's relations with customers, suppliers, Public Institutions and every Public Administration are based on the principles of fairness, transparency and cooperation. Any conduct that could be considered collusive or that could compromise the principles expressed in the Code of Ethics is rejected.

Applications of Italian Legislative Decree no. 254/2016	Risk identified	Description of the risk
Fight against corruption	POTENTIAL RISK LINKED TO THE OCCURRENCE OF EPISODES OF CORRUPTION (BOTH ACTIVE AND PASSIVE)	The TXT Group regularly engages in commercial relations with other companies. This can represent a potential risk of exposure of its employees to both active and passive corruption.

Monitoring, management and mitigation of social risks are implemented through the following actions:

Actions

- Benefits of any kind (money, promises of employment, etc.) should not be granted to representatives of the Italian or foreign Public Administration, Partners, or their close relatives, in order to acquire favourable treatment in any business activity or that may in any case influence independence of judgement or result in any advantage for the company.
- It is forbidden to distribute gifts and to perform acts of courtesy and hospitality to representatives of public officials and public employees, public service employees and employees of Partners, except when of modest value and in any case that do not compromise the integrity or reputation of one of the parties and that cannot be interpreted, by an impartial observer, as seeking to gain an improper advantage.
- Money, gifts or any other benefit or the promise of such should not be accepted from anyone seeking to enter into a relationship with the company and who wishes to improperly obtain unduly favourable treatment.
- The company may not hire employees of the public administration, of the State or of the European Communities, of any qualification or level, their spouse and their relatives, or their ascendants, descendants, brothers, sisters, uncles, aunts, nephews, nieces, or former employees, for three years following the performance of an act within the competence of one of the above-mentioned persons from which the Company has derived a benefit, if this is intended to obtain an unfair profit for the company.
- Any commercial incentive must comply with standard market practices in the country of reference, must not exceed the permitted value limits and must have been approved in accordance with internal rules. The granting of any commission, discount, credit and rebate must conform to current regulations and be officially awarded to corporate entities upon presentation of supporting documentation. It is forbidden to promise or provide benefits or other similar incentives commensurate with the achievement of objectives based on performance targets that are clearly unjustified and unattainable.
- It is forbidden to provide services to external staff and partners that are not adequately justified by the contractual relationship established with them, or to make payments to them that are not adequately justified by the type of task to be performed and applicable local practices.
- No payment over 1,000 Euro can be made in cash in Italy or abroad.
- Any document describing an event that has occurred and/or an assessment made in the context of operations that fall within the sensitive areas for the purposes of the Anti-Corruption Policy, must be signed by or attributable to the

person who drafted it. All documents must comply with current legislation.

In addition, TXT mainly carries out activities with private companies in Western countries and with a high rate of industrialisation.

TXT monitors and manages the risk of corruption, conflict of interest and other corporate governance offences by defining its own policy for the prevention of corruption, conflicts of interest and other corporate governance offences and by providing for the establishment of a procedure and implementation of training and information activities.

The Anti-Corruption Policy aims to protect the company's assets, people and objectives through a broader approach, which:

- provides indications to identify the offices different levels of exposure to the risk of corruption and illegality and indicates the organisational interventions aimed at preventing the same risk;
- indicates the implementation and control rules for the respect of legality and integrity;
- invites employees to review all their conduct and procedures;
- recognises the corruption prevention plan as an essential piece of policy.

No corruption was reported in 2021.

3 COMPANY MODEL FOR THE MANAGEMENT AND ORGANISATION OF ACTIVITIES

a) The company model

As described in detail in the 2021 Report on corporate governance and the company's ownership structure, TXT has drawn up a complex and standardised system of rules of conduct governing both its organisational structure and relations with stakeholders, in particular shareholders, which complies with the most advanced standards of Corporate Governance.

The Board has adopted a Corporate Governance Model in line with the principles contained in the Code of Conduct in order to ensure correct and transparent corporate information and to create value for shareholders through the proper functioning of the company.

The Group's corporate bodies are listed below:

- Shareholders' Meeting
- Board of Directors
- Remuneration Committee
- Risks and Internal Controls Committee
- Related Parties Committee
- Board of Statutory Auditors

The Shareholders' Meeting ("Meeting"), duly constituted, is the body that expresses the Company's will through its resolutions. Resolutions passed by the Shareholders' Meeting in accordance with law and the Articles of Association are binding on all shareholders, including absent and dissenting shareholders.

The Board of Directors ("Board") is exclusively responsible for managing the company. It is appointed by the Shareholders' Meeting every three years. Its members appoint a Chairman and a CEO and define their powers.

In 2020 the TXT Board of Directors adopted Policies relating to the diversity of the Board itself and the Board of Statutory Auditors. They describe the optimal characteristics of the composition of the Board of Directors and the Board of Statutory Auditors so that they can exercise their tasks in the most effective manner, making decisions that may concretely

exploit the contribution of a plurality of qualified points of view able to examine the issues under discussion from different perspectives.

The Remuneration Committee is constituted by Board members and has consultative and advisory functions. In particular, it expresses opinions and makes proposals to the Board of Directors regarding the determination of the remuneration of executive directors and managers with strategic responsibilities.

The Risks and Internal Controls Committee is a committee of the Board that assesses the adequacy of the internal control and risk management system and expresses its opinion on the control procedures.

The Related Parties Committee is a committee of the Board that assesses the Company's interest in carrying out Transactions with Related parties, as well as the convenience and substantial correctness of the related conditions.

The Board of Statutory Auditors is a supervisory body responsible for ensuring compliance with the law and the Company's Articles of Association as well as management controls. It is not assigned with the task of auditing Company accounts, which is the responsibility of Independent Auditors named on a specific Register, which is the control entity external to the Company. The latter are vested with the power to verify, during the reporting period, that company books are properly managed, accounting items are correctly recorded, and statutory and consolidated financial statements are in line with accounting entries and audits performed, and that all accounting documents are compliant with the relevant regulations.

b) The corporate bodies

Shareholders (with shareholdings of more than 3% as at 31 December 2021):

- Laserline SpA
- Market

Board of Directors at 31/12/2021:

- Enrico Magni: Chairman of the BoD
- Daniele Misani: Chief Executive Officer
- Matteo Magni: Director
- Paola Generali: Independent Director
- Antonella Sutti: Independent Director
- Carlo Gotta: Independent director

- Stefania Saviolo: Independent Director

Of the aforementioned members, 43% are in the age group over 50 years of age, while the remaining part is in the age group between 30 and 50 years of age.

Board of Statutory Auditors:

- Mario Basilico: Chairman
- Luisa Cameretti: Standing auditor
- Franco Vergani: Standing auditor
- Massimiliano Alberto Tonarini: Alternate auditor
- Giada d'Onofrio: Alternate auditor
- Fabio Maria Palmieri: Alternate auditor

Of the above members, one is between 30 and 50 years old (17%) and five are over 50 years old (83%).

Independent auditors:

- Crowe Bompani S.p.A.

c) Mission and values

The principle mission of the Group is to offer quality products and services at competitive conditions and in compliance with the rules protecting fair competition. TXT targets extremely dynamic markets that require cutting-edge technological solutions; markets where technology and innovation are key elements for growth and competitiveness.

To meet the needs of its customers, TXT has always focused on innovation, whether technological, process or business, making it one of the values on which to build its success. The Group excels in offering business-critical solutions, exclusively designed for the business of its customers and their processes. One of TXT's primary objectives is to create value for all stakeholders.

For the Group, therefore, the baseline requirements are: the professionalism of the stakeholder, the availability of means, structures and know-how and the existence of quality, safety and environmental systems.

d) Group Ethics

The values that guide the internal and external life of TXT are governed by the Code of Ethics, formalised in 2010 and applicable to all Group Companies. The recipients of this Code are the directors, employees, external staff, customers, suppliers, lenders (banks and shareholders), residents of areas surrounding the company or interest groups in the sector or locally.

To ensure that the Code is applied and respected, each Group company undertakes to disseminate it to all interested parties. In addition, the Board of Directors of TXT has set up a "Supervisory Body" pursuant to Italian Legislative Decree 231/2001 whose task, among others, is to oversee the application of the Code.

The Code of Ethics is a set of principles that constantly guide daily action and from which all company policies and business principles derive, that is:

- *Legality, honesty and fairness*

The Group operates in compliance with applicable laws and pursues its interests following a policy of conduct in accordance with the principles of legality, fairness and honesty. The same parameters are applied in relations with Group stakeholders. The Group undertakes to ensure that the provisions of the Code are adopted and practised by all its recipients.

- *Compliance with laws and regulations*

The Group ensures that it is adequately informed and made aware of issues relating to the Code of Ethics in order to comply with current laws and regulations. Any doubts or uncertainties are resolved by its own direct managers and by the Supervisory Board.

- *Transparency and completeness of information*

The Group ensures that all stakeholders are provided with clear and transparent information about their situation and performance, without favouring any interest group or individual. Shareholders and competent bodies are informed about significant events concerning the Group's corporate and accounting management.

- *Confidentiality of information*

The Group ensures that it has procedures in place to guarantee the confidentiality of the information in its possession and refrains from seeking confidential information using illegal means. The Group ensures that it is forbidden to use confidential information for purposes not related to the exercise of its professional activity.

- *Respect for the individual and fairness*

The Group is committed to ensuring respect for the physical and cultural integrity of the individual, for relations with others and fair treatment. In support of this, the Group checks the existence of a context of safety and respect for individual dignity.

- *Impartiality and equal opportunities*

TXT avoids any discrimination based on age, gender, sexuality, health, race, nationality, political opinions or religious beliefs in all decisions that affect relations with its stakeholders.

- *Conflicts of interest*

The Group undertakes to prevent situations of conflict of interest, by prohibiting the recipients from pursuing interests other than the Group's mission or from personally benefiting from business opportunities.

- *Protection of competition*

The Group believes in free and fair competition, and consequently its actions are oriented towards obtaining competitive results that reward ability and efficiency. Any action that could alter the conditions of fair competition is contrary to company policy and is prohibited.

With regard to the management of the aspects linked to the five areas referred to in the Decree, reference should be made to Chapter 2, RISK ANALYSIS, in relation to the actions implemented in response to the risks identified, and Chapter 4, THE POLICIES APPLIED AND THE RESULTS ACHIEVED.

4 EU ENVIRONMENTAL TAXONOMY REGULATION

The European Commission through EU Regulation 2020/852 established a system classification to define and identify a list of activities considered to be environmentally sustainable.

The purpose of the Regulation is to ensure transparency and comparability of investment in order to promote green finance and to enable the achievement of goals related to the European Green Deal.

Activities are assessed on the basis of whether they can contribute to six environmental objectives:

1. Climate change mitigation;
2. Climate change adaptation;
3. The sustainable use and protection of water and marine resources;
4. The transition to a circular economy
5. Pollution prevention and control
6. The protection and restoration of biodiversity and ecosystems

Four requirements that economic activities need to comply with in order to qualify:

- 1) They provide a substantial contribution to at least one of the six environmental objectives above;
- 2) "No significant harm" is caused to any of the other environmental objectives;
- 3) Compliance with minimum social and governance safeguards
- 4) Compliance with robust and science-based technical screening criteria;

TXT assessed the activities for 2021 and classified as **eligible** for the EU Taxonomy Regulation 0% of the capital expenditure (hereafter CAPEX), 0% of operating expenses (hereafter OPEX) and 3.6% of turnover.

KPI: Calculation Methodology

$KPI\ Turnover(\%) = \frac{\text{Turnover from eligible activities}}{\text{Total turnover}}$

Total turnover (approx. Eur 96.3 million) corresponds to the consolidated “Revenues” in TXT’s financial report.

Turnover from eligible activities was determined as the aggregate of the revenues of the eligible activities (for a total of Eur 3.5 million).

$$\text{KPI Capex (\%)} = \text{Taxonomic Capex from eligible activities} / \text{Total Taxonomic Capex}$$

The Capex KPI refers to the percentage of capital expenditure that meets the requirements of the regulations.

The Total Taxonomic Capex (approximately EUR 11.2 million) considered for Capex corresponds to the value of the increase in tangible assets, intangible assets and rights of use (IFRS 16) of the TXT Group. It should be noted that the value of the increase in fixed assets includes acquisitions (IFRS 3 revised), while investments in financial assets were excluded

The Taxonomic Capex from eligible activities (EUR 0 million) is determined as total of the Capex of the individual eligible assets, calculated by applying the same criteria.

$$\text{KPI Opex (\%)} = \text{Taxonomic Opex from eligible activities} / \text{Total taxonomic Opex}$$

The Opex KPI refers to the percentage of operating expenses that meet the requirements of the regulations. Therefore, expenses related to research and development, maintenance and repairs, personnel costs and any other expenditure directed to the day-to-day operation of the assets, necessary to ensure the effective and continuous operation of the assets themselves.

Consequently, the total taxonomic opex (approximately € 1.5) corresponds to the value of maintenance and repairs.

The Taxonomic Opex from eligible activities (0 million euros) is determined as the sum of the Opex of the individual eligible activities, calculated by applying the same criteria.

The detail of the indicators broken down by activity is described in the annex.

Attività eleggibile	Fatturato	Capex	OPEX
Flight OpS	3,5 milioni		
Totale	3,5		

5 THE POLICIES APPLIED AND THE RESULTS ACHIEVED

In the tables relating to the analysis of TXT's social, personnel management and environmental performance, Italy and Germany were considered as a single entity and therefore the information has been provided in an aggregated form.

It should be noted that 100% of employees in Italy, Germany and France are covered by collective labour agreements.

The information was disaggregated when required by the GRI or when necessary to ensure a better understanding of the data.

With the exception of the areas relating to the environment and the fight against active and passive corruption (for which reference should be made to the "RISK ANALYSIS" section), the Group did not deem it necessary to adopt official policies for the other areas mentioned in the Decree, also in light of the good functioning of long-established practices and the high degree of central control.

a) People as resources of TXT

The TXT Group had 1,091 employees at 31 December 2021, of which:

- 513 employees (86 women and 427 men) of the Italian parent company TXT e-Solutions S.p.A.;
- 78 employees (14 women and 64 men) of the German subsidiary Pace GmbH;
- 8 employees (3 women and 5 men) of the US subsidiary PACE America, Inc.;
- 19 employees (17 men and 2 woman) of the Swiss subsidiary TXT e-solutions Sagl;
- 5 employees (all men) of the UK subsidiary TXT NEXT Ltd;
- 6 employees (all men) of the French subsidiary TXT NEXT Sarl;
- 56 employees (2 women and 54 men) MAC Solutions SA;
- 6 employees (4 men and 2 woman) of the subsidiary Txt Risk Solutions srl;
- 28 employees (9 women and 19 men) of the subsidiary Cheleo srl;
- 238 employees (96 women and 142 men) of the subsidiary Assioma.Net srl
- 6 employees (all men) of the subsidiary Assiopay srl.
- 127 employees (76 men and 51 woman) of the subsidiary HSPI s.p.a.
- 1 employee (man) of the subsidiary TXT Working Capital Solutions srl.

TXT e-solutions S.p.A., Txt Risk Solutions srl, Pace GmbH, Assioma.Net srl, Assiopay srl, HSPI S.p.A. and Cheleo srl also make use of the contribution of a number of freelancers and interns.

Italy

In 2021, 98% (899/919) of Italian employees worked with permanent contracts (including interns) and only 2% (20/919) had fixed-term contracts. Part-time workers accounted for 2% (21/919) and only 4 are men.

During the year, 259 people were recruited in Italy (62 women and 197 men), accounting for 28% of the total workforce. There were 20 with fixed-term contracts, with the remaining 239 with permanent contracts.

In 2021, 180 employees resigned, of whom 55 were women. Turnover⁵ was 19.5% (180/919). The rate of resignations remains high, as in 2020, in line however with the current Italian IT market trends.

Recruitment and resignations were distributed in age groups and by gender as shown in the following table (the percentages shown in the table are related to the workforce):

ITALY, RECRUITED

Germany

In Germany, 96% (75/78) of employees were on permanent contracts and 3.8% (3/78) on fixed-term contracts. Part-time workers accounted for 14% (11/78), of which 3 women and 8 men.

During 2021, 14 people were recruited (2 woman and 12 men), accounting for a hiring rate of 18% of the total workforce. 78% of new hires were on a permanent contract.

There were 22 resignations, of whom 7 were women. Turnover was 28%. The number of recruitments and resignations is broken down by age bracket as shown in the table below, with an indication of the percentage related to the total workforce at the end of the year:

Switzerland (MAC and TXT e-solutions sagl)

As for staff in Switzerland, 97% (73/75) of employees were on permanent contracts. There were no part-time workers.

During 2021, 29 people were recruited (1 woman and 28 men), accounting for a hiring rate of 38% of the total workforce. 100% of new hires were on a permanent contract.

There were 23 resignations. Turnover was 30%.

The number of recruitments and resignations is broken down by age group as shown in the table below, with an indication of the percentage related to the total workforce at the end of the year:

Resignations	35	106	39	95	64	168

Human capital is TXT's main resource for the development of our services and products. The attention paid to every process related to the management of our people represents our true distinctive competence. The new business acquisitions that have taken place over the past year have been supported by the harmonisation of all HR processes and tools across all the TXT Group's entities.

Staffing is the first strategic element for building a winning team, which is why the company pays particular attention to the continuous improvement of this process. The entire process is supported by technology platforms that can accompany the different stages of the work and monitor the state of the art in order to be able to effectively intervene at any time. The objective is to reduce the risk level in the selection of resources that do not meet company expectations. The HR staff are continuously trained in both technological and socio-cultural issues. Moreover, increasing attention is paid to identifying characteristics relating to soft skills in new resources, which are useful for being able to apply the best teamwork and problem solving.

The market in which TXT Group operates is characterised by a strong shortage of skills. People with the necessary skills are increasingly in demand from market competitors and therefore increasingly difficult to find in the labour market. For this reason, in order to find qualified human capital, the HR area and the corporate area dedicated to communication continue to collaborate more and more, focusing the marketing on both the corporate offer in terms of activities carried

out (projects, products, services) and on professional development topics. The company area in question is active on social networks and on all the communication channels most used by our potential candidates, as well as in the world of ICT companies in general.

Given the extremely lively employment dynamics of the market in which it operates, the other challenge for TXT is maintaining a low level of turnover. The TXT Group is committed to increasingly becoming a company which offers potential employees a prospect of professional growth and skills year by year, where they can build their professional career.

In view of the health protection requirements resulting from the global pandemic, starting in 2020 TXT Group began to rethink its work paradigms and reorganised its remote work activities through an individual remote working agreement for each employee. To date, the model has proved to be strong and the results have been evident in terms of safeguarding the health of employees, limiting the spread of the virus, but also in terms of work performance and customer satisfaction, improving quality of life and optimising work-life balance.

Like every year, training and growth plans have been designed and implemented to develop the growth of human capital. The work was again carried out on three levels this year: Soft skills, technical skills and language training.

As in previous years, the Group's effort in 2021 was to use new tools and methods to provide training outside the classroom, thus taking advantage of video conferencing and e-learning platforms.

Starting with the training needs communicated by staff, an individual and team training course was designed and implemented in collaboration with the HR team and technical managers to improve behavioural and technical skills.

In order to successfully meet internal needs and those of the constant company internationalisation process, Italian courses for foreign employees and German and English language courses were also provided across the entire population.

A management development training course has been designed and planned for 2021 and will start in early 2022, the aim being to equip future managers with cognitive tools to support their operational decisions.

Training activities in workplace health and safety continued as usual, with regular training and updates in accordance with the law.

The table below shows the number of hours and courses provided on the levels of soft skills, technical skills and language training:⁶

Group Training	2021	2020	2019
Number of courses	94	60	48
Hours delivered	8,268	7,461	5,915
People involved	661	530	597

The numbers on the average training hours of the Group are shown below.

Average hours of training						
	2021		2020		2019	
<i>Classes</i>	<i>Women</i>	<i>Men</i>	<i>Women</i>	<i>Men</i>	<i>Women</i>	<i>Men</i>
Executives	0	12.22	0	8.7	57	39.83
Managers	11	12.53	4.7	10.2	7.2	6.36
Office workers	13.02	7.86	7.7	12.2	6.1	7.62

TXT's relationship with trade unions is based on dialogue and full compliance with the employment contracts applied.

⁶ The figures shown refer to the Group companies: TXT e-Solutions Spa, Assioma.net Srl and HSPI Spa.

b) Diversity and inclusion

TXT recognises the importance of its human capital without distinction and undertakes to respect the equality of its employees. The benefits enjoyed by employees are awarded without distinction between part-time and full-time contracts and without gender distinctions.

No episodes of discrimination or monetary sanctions were observed or reported in 2021, nor for inadequate treatment of ethnicity, gender, religion or opinion.

GROUP	2019						2020						2021					
	Women			Men			Women			Men			Women			Men		
	<30	-30	>50	<30	-30	>50	<30	-30	>50	<30	-30	>50	<30	-30	>50	<30	-30	>50
Executives	-	-	1	-	3	4	0	1	1	0	8	2	0	0	2	0	13	9
Managers	-	5	6	-	24	17	0	5	6	1	21	12	0	7	8	0	32	27
Office workers	61	116	18	175	304	52	51	121	23	204	317	59	60	161	27	275	390	80

Respect for human rights is fundamental to TXT and is implemented through compliance with the various national rules and regulations in the countries in which the Group operates. However, in consideration of the markets served (mainly in Western countries) and the type of activity carried out (high-tech services), no specific measures are adopted to prevent human rights violations or discriminatory behaviour, since the risk that such events may occur is considered remote.

c) Occupational health and safety

Occupational health and safety are core principles of TXT's business management. For years now, the concept has been extended to psychological and physical health, whose indicators are:

- Low absenteeism and accident rates
- Moderate number of overtime hours

- Long period of stay in the company.

TXT routinely looks after the welfare of its employees not only through training programmes on "work-related stress" issues, but also by ensuring employees the option of working remotely, flexible hours, responsibility for and filling in their own time-sheet (i.e. no need to clock in and out) and by organising informal meetings between colleagues, also outside normal work activities, to build and improve relations between employees and the overall company atmosphere.

One injury occurred in Italy en route in 2021.

In Germany and in the other Regions no worker injuries occurred in the three-year period.

	M.U.	2019	2020	2021
Injuries at work	No.	1	0	1
<i>of which serious injuries</i>	No.	0	0	0
<i>of which fatal injuries</i>	No.	0	0	0
Annual hours worked	hours	1,262,089	1,193,453	1,498,484
Injury rate⁷	no./hours	0.8	0	0.6
<i>Serious injury rate</i>	no./hours	0	0	0
<i>Fatal injury rate</i>	no./hours	0	0	0

In relation to workplace safety issues, in particular the assessment and mitigation of risks at work, the reporting of risks by employees, occupational health services, the consultation and training of personnel, in Italy TXT complies with the provisions of Italian Legislative Decree 81/2008 on the Safety and Health of Workers. Similarly in the other countries in which it operates, the TXT Group complies with the provisions of the relevant national legislation on these issues.

⁷ (Tot. number of injuries/total number of hours worked) x 1,000,000.

Generally speaking, the measures taken to mitigate the impact of risks on the health and safety of individuals effectively limit their extent in terms of probability of occurrence and severity.

d) Energy and emissions

Energy

TXT carries out its activities both in its own offices and at the customer's premises. The energy vectors used by the Group are mainly natural gas, electricity and district heating. Diesel and petrol use are related to use by the company car fleet.

During 2021, TXT e-solutions S.p.A. changed its headquarters, moving from Via Frigia 27 in Milan, to Via Milano 150 in Cologno Monzese.

It also closed the Turin office in 2021.

The following table summarises the energy consumption, broken down by type.

Type	Unit of Measurement	2021	2020	2019
Natural Gas	TJ	3.7	3.5	2.3
Diesel Fuel	TJ	2.0	1.9	2.8
Petrol	TJ	0.3	0.3	0.5
Electricity	TJ	1.7	1.5	1.9
District heating	TJ	0.2	0.2	0.2
TOTAL ⁸	TJ	9.7	7.4	7.6

⁸ The totals may differ due to rounding. The same applies to the subsequent tables.

The increase in consumption in 2021 compared to 2020 is mainly due to the entry of new companies (HSPI and MAC) into the scope of the analysis. Pace GmbH changed offices in 2020, resulting in a change in the type of heating system that since 2020 also includes the consumption of natural gas.

Emissions

The greenhouse gas emissions produced by the Group are subdivided into direct energy emissions (Scope 1) and indirect energy emissions (Scope 2 and Scope 3). The impact of other emissions is not considered significant due to the fact that the Group is mainly involved in service activities.

The following data, considering the activities carried out by TXT, reflect the greenhouse gas emissions generated:

- from the consumption of natural gas for heating offices (Scope 1)
- from the use of the company car fleet (Scope 1)
- from the use of electricity inside offices (Scope 2).
- from the use of district heating for heating offices (Scope 2).
- from journeys by train, plane and hired cars (Scope 3).

Emissions Scope 1

The impacts in terms of tonnes of CO₂ of the overall consumption of natural gas, diesel and petrol, broken down by year, are reported in the following table:

Source of emissions (Scope 1)	Emissions 2021 [t CO ₂]	Emissions 2020 [t CO ₂]	Emissions 2019 [t CO ₂]
Natural Gas	126	198	126
Diesel Fuel	145	139	204
Petrol	40	23	34
TOTAL	331	361	364

As already anticipated in the comment on the energy data, the reduction in CO₂ emissions in 2021 compared to 2020 is attributable to an increase in car travel for business trips. The change in 2020 compared to 2019 is due to the Covid-19 pandemic.

Emissions Scope 2

Another important aspect of TXT’s environmental footprint in terms of indirect emissions (Scope 2) is the use of electricity and district heating in offices.

The following table gives details of consumption for the three-year period 2019–2021 (the percentage of electricity produced from renewable sources depends on the individual national electricity mixes):

Source of emissions (Scope 2)	Emissions 2021 [t CO ₂]	Emissions 2020 [t CO ₂]	Emissions 2019 [t CO ₂]
Electricity (Market Based)	240	213	272
Electricity (Location Based)	139	160	204
District heating	11	10	11
TOTAL SCOPE 2 Market Based	251	223	283
TOTAL SCOPE 2 Location Based	150	169	215

The increase in emissions in 2021 is due to an increase in the scope of analysis; the reduction in emissions in 2020 is due to a reduction in electricity consumption as a result of the massive remote working adopted by the company due to the Covid-19 outbreak.

Emissions Scope 3

In order to mitigate the impact resulting from business travel, TXT seeks to use teleconferencing and videoconferencing technologies as an alternative to travel wherever possible; it also records the miles travelled or the fuel used to monitor trends over time.

Group employees travel by air to distant destinations and by train and car to closer ones. Our service providers (travel/car rental agencies) track travel and the results are periodically communicated to the Facility department. In this way, TXT is able to monitor costs, consumption and related impacts over time.

The CO₂ emissions related to business travel, at Group level, are shown in the following table:

Source of emissions (Scope 3)	Emissions 2021 [t CO ₂]	Emissions 2020 [t CO ₂]	Emissions 2019 [t CO ₂]
Plane	65	62	232
Train	9	2	8
Car	220	55	60
TOTAL SCOPE 3	294	119	299

The overall change in 2021 compared to 2020 is due to an increase in travel by the entire Group after Covid19.

e) Compliance with rules and regulations

The Group carries out its activities reconciling, where possible, the reduction of pollution and the containment of negative impact on the environment.

TXT is committed to creating and spreading a corporate culture of responsible behaviour that safeguards the integrity of the environment in all circumstances.

The company has always operated in full compliance with environmental laws and regulations and has not received monetary penalties in the last three years.

Moreover, in the course of the last three years, TXT:

- has not received monetary and non-monetary socio-economic penalties;
- has not registered complaints relating to infringements of privacy and the loss of its customers' data.

In line with the principles defined in its Code of Ethics, TXT also acts according to the values of legality, honesty and fairness in the management of tax activities. The Group also believes that the contribution deriving from taxes paid is an important channel through which it can contribute to the development of the countries where it operates. For this reason, TXT pays attention to compliance with tax regulations and therefore acts responsibly in the jurisdictions where it is present.

The Group is oriented towards behaviour to protect corporate assets and create value in the medium to long term and that is why it acts responsibly from a tax perspective.

Tax governance is inspired by the Group Code of Ethics at TXT. The CFO is responsible for the management of tax issues as well as the management and responsibility of

compliance with the tax strategy. TXT has not defined a formalised tax strategy at Group level, and individual companies operate in compliance with local tax regulations.

To date, the Group does not have formalised tax governance.

In the different countries/companies, compliance with taxation and related controls is entrusted to professional figures selected specifically country by country. Tax risks are analysed and managed in accordance with the overall Enterprise Risk Management business model.

By establishing company whistleblowing channels, TXT allows to report illegal behaviour or critical issues in the company organisation.

To date, no requests have been received from stakeholders regarding taxation aspects. In any case, all the corporate departments responsible for compliance on this matter would be ready to implement them.

Relations with tax authorities are based on the principles of correctness and compliance with the different regulations applicable in the countries where TXT operates. It should be noted that the Group does not carry out advocacy activities in tax matters.

f) TXT's commitment to the community

There is increasing talk of companies that are ethical and have a strong sense of social responsibility. The TXT Group promotes the development and well-being of the local community.

In 2021 TXT focused on helping people with disabilities. Through corporate volunteering activities, TXT has worked with the Università Cattolica in Milan on the Prospera project, contributing to the integration of university students and young disabled people into the working world.

In 2021, Assioma, and 2020 TXT e solutions Spa structured a training course lasting three months, establishing an Academy for new graduates in engineering and scientific faculties and even reaching out to young high school graduates in some cases. The training objective is still to bridge the gap between the IT and process skills that are missing in the study courses of certain faculties. 95% of the participants continued their relationship with the Group with employment contracts, thus the methodology tested in previous years has improved over time. In addition to this, Assioma brings young students

closer to the world of work, allowing teenagers to experiment through alternating school/work programmes and helping them learn about the business context.

Cheleo has been working with the association Lieta for years, through which it supports the distance adoption of children from Latin America every year.

TXT Group does not support political parties in any way and its relations with the institutions are based on compliance with all applicable rules and regulations.

Finally, no measures have been applied to implement agreements of international and supranational organisations on social and staff-related matters, since the policies already implemented by the Group and described in this document are considered adequate by virtue of the activities carried out by the Group in the countries where it operates.

The TXT Group was not involved in lawsuits related to anti-competitive behaviour in the last three years.

g) Certifications

TXT has received some very prestigious and crucial certifications in the course of its activities, such as:

- SPICE certification at level 2: a demonstration of the excellence of TXT's work in the production of products and services related to the car industry;
- ISO 9001:2015 certification for the implementation of a quality management system;
- UNI EN 9100:2018 certification for aerospace component suppliers;
- ISO 27001:2017 certification for cyber security.

6 APPENDIX

a) Methodological note

The content of the Non-Financial Statement 2021, which contains a description of the main initiatives of the fiscal year 2021 which goes from 1 January 2021 to 31 December 2021, has been defined while complying with the following sources:

- Directive 2014/95/EU
- Italian Legislative Decree 254 of 30 December 2016 and subsequent integrations
- Consob Regulations for the implementation of Italian Legislative Decree 254 of 30 December 2016, on the disclosure of non-financial information (Resolution 20267 of 18 January 2018)
- GRI Standards (www.globalreporting.org)

Reporting standards adopted

To prepare its Non-Financial Statement, TXT has adopted the GRI Sustainability Reporting Standards (hereinafter also referred to as GRI Standards), published by the GRI - Global Reporting Initiative. In particular, the document is drawn up in accordance with the option "In accordance - Core" of the GRI Standards.

The following table compares the reporting areas of the Decree in relation to the Standards used in this document.

Applications of Italian Legislative Decree 254/2016	GRI standards
Business model	GRI 102-18: <i>Governance structure.</i> GRI 103-2: <i>The management approach and its components.</i>
Policies implemented by the company	GRI 103-1: <i>Explanation of the material topic and its Boundary.</i> GRI 103-2: <i>The management approach and its components.</i>
Risks generated or suffered	GRI 102-15: <i>Key impacts, risks and opportunities.</i>
Environment	GRI 103-1: <i>Explanation of the material topic and its Boundary.</i> GRI 103-2: <i>The management approach and its components.</i>

	<p>GRI 302-1: <i>Energy consumption within the organisation.</i></p> <p>GRI 305-1: <i>Direct (Scope 1) GHG emissions.</i></p> <p>GRI 305-2: <i>Energy indirect (Scope 2) GHG emissions.</i></p> <p>GRI 307-1: <i>Non-compliance with environmental laws and regulations.</i></p>
<p>Social</p>	<p>GRI 103-1: <i>Explanation of the material topic and its Boundary.</i></p> <p>GRI 103-2: <i>The management approach and its components.</i></p> <p>GRI 206-1: <i>Legal actions for anti-competitive behaviour, anti-trust, and monopoly practices.</i></p> <p>GRI 207-4: <i>Country-by-country reporting</i></p> <p>GRI 415-1: <i>Political contributions.</i></p> <p>GRI 418-1: <i>Substantiated complaints concerning breaches of customer privacy and losses of customer data</i></p> <p>GRI 419-1: <i>Non-compliance with laws and regulations in the social and economic area.</i></p>
<p>Work Practices</p>	<p>GRI 103-1: <i>Explanation of the material topic and its Boundary.</i></p> <p>GRI 103-2: <i>The management approach and its components.</i></p> <p>GRI 102-8: <i>Information on employees and other workers.</i></p> <p>GRI 401-1: <i>New employee hires and employee turnover.</i></p> <p>GRI 401-2: <i>Benefits provided to full-time employees that are not provided to temporary or part-time employees.</i></p> <p>GRI 403-1: <i>Occupational health and safety management system</i></p> <p>GRI 403-2: <i>Hazard identification, risk assessment, and incident investigation</i></p> <p>GRI 403-3: <i>Occupational health services</i></p> <p>GRI 403-4: <i>Worker participation, consultation, and communication on occupational health and safety</i></p> <p>GRI 403-5: <i>Worker training on occupational health and safety</i></p> <p>GRI 403-6: <i>Promotion of worker health</i></p>

	<p>GRI 403-7: <i>Prevention and mitigation of occupational health and safety impacts directly linked by business relationships</i></p> <p>GRI 403-9: <i>Types of injury and rates of injury, occupational diseases, lost days, and absenteeism, and number of work-related fatalities.</i></p> <p>GRI 404-1: <i>Average hours of training per year per employee.</i></p> <p>GRI 405-1: <i>Diversity of governance bodies and employees.</i></p>
Respect for human rights	<p>GRI 103-1: <i>Explanation of the material topic and its Boundary.</i></p> <p>GRI 103-2: <i>The management approach and its components.</i></p> <p>GRI 406-1: <i>Incidents of discrimination and corrective actions taken.</i></p>
Combating active and passive corruption	<p>GRI 103-1: <i>Explanation of the material topic and its Boundary.</i></p> <p>GRI 103-2: <i>The management approach and its components.</i></p> <p>GRI 205-3: <i>Confirmed incidents of corruption and actions taken.</i></p>

The list of relevant aspects and their boundary are instead shown in the table below:

Material aspects for TXT	GRI standards	BOUNDARY		
		Internal	External	Limitations
Anti-corruption	<i>GRI 205: Anti-corruption 2016 (205-3)</i>	TXT Group		
Anti-competitive behaviours	<i>GRI 206: Anti-competitive Behaviour 2016 (206-1)</i>	TXT Group		
Taxes	<i>GRI 207: Taxes (207-4)</i>	TXT Group		

Energy	<i>GRI 302: Energy 2016 (302-1)</i>	TXT Group		
Emissions	<i>GRI 305: Emissions 2016 (305-1, 305-2)</i>	TXT Group		
Environmental compliance	<i>GRI 307: Environmental compliance 2016 (307-1)</i>	TXT Group		
Employment	<i>GRI 401: Employment 2016 (401-1, 401-2)</i>	TXT Group		
Occupational health and safety	<i>GRI 403: Occupational Health and Safety 2018 (403-9)</i>	TXT Group	External collaborators working at Group offices	Reporting not extended to the external boundary
Training and education	<i>GRI 404: Training and Education 2016 (404-1)</i>	TXT Group		
Respect for diversity and equal opportunities	<i>GRI 405: Diversity and Equal Opportunity 2016 (405-1)</i>	TXT Group		
Non-discriminatory behaviours	<i>GRI 406: Non-discrimination 2016 (406-1)</i>	TXT Group		
Political contributions	<i>GRI 415: Public Policy 2016 (415-1)</i>	TXT Group		
Customer privacy	<i>GRI 418: Customer Privacy 2016 (418-1)</i>	TXT Group		
Social and economic compliance	<i>GRI 419: Socio-economic Compliance 2016 (419-1)</i>	TXT Group		

Reporting process

TXT has established an "Internal procedure for the preparation of the Non-Financial Statement pursuant to Italian Legislative Decree 254/16".

The contacts for the drafting, application and updating of the Non-Financial Statement procedure are:

- Policy owner: Manager responsible for preparing corporate accounting documents
- Policy administrator: Head of Control & Governance

The *Policy administrator* guarantees the timely updating of the procedure and its dissemination; the *Policy owner* guarantees the annual approval process of the same as described above.

A conservative estimate was used for energy consumption and *business travel* if the precise data were not available, which led to the choice of the scenarios associated with less positive environmental performance by the company.

For certain data relating to individuals and with irrelevant percentages, estimates were used which were based on the total data of the Group. There are no "restatements" of the information provided in previous years, nor variations in relevant reporting aspects.

The Non-Financial Statement is drawn up on an annual basis. The previous edition of the document relating to the 2020 reporting year was approved in March 2021.

This document was approved by the Board of Directors of TXT e-solutions S.p.A. on 11 March 2022.

The 2021 Non-Financial Statement is subject to verification of compliance by EY S.p.A. in accordance with the provisions of Italian Legislative Decree 254/2016, Article 3, paragraph 10.

Principles for defining the "content" and "quality" of the Non-Financial Statement

TXT has adopted the following general principles laid down by the "GRI 101 – Foundation" Standard.

Principles for defining the **content** of the Non-Financial Statement:

- a. *Stakeholder inclusiveness*: Identification of stakeholders and explanation of how TXT has responded to their expectations and interests.
- b. *Sustainability context*: The Non-Financial Statement must present the performance of the organisation in the wider context of sustainability.
- c. *Materiality*: Only those aspects that reflect significant impacts in the economic, environmental and social spheres or that influence the judgement and decisions of stakeholders can be reported.

- d. *Completeness*: the Non-Financial Statement must include sufficient material matters, including limitations on reporting, to reflect significant economic, environmental and social impacts and to allow stakeholders to assess TXT performance over the reporting period.

Principles for defining the **quality** of the Non-Financial Statement:

- a. *Accuracy*: Information is reported in a sufficiently accurate and detailed manner to enable stakeholders to form an opinion on the performance of the organisation.
- b. *Balance*: The positive and negative aspects of TXT's performance are reported in order to allow for a reasonable assessment of the overall performance.
- c. *Clarity*: Information is made available in an understandable and accessible manner to the stakeholders who use the Non-Financial Statement.
- d. *Comparability*: The Non-Financial Statement provides information that is consistent from year to year.
- e. *Reliability*: TXT gathers, records, compiles, analyses and presents the information and processes used in preparing the Non-Financial Statement so that they can be subject to external scrutiny, establishing the quality and relevance of the information.
- f. *Timeliness*: The Non-Financial Statement is drawn up annually so that information is available to stakeholders at a set frequency.

Criteria for inclusion or exclusion of information from the Non-Financial Statement

TXT, through the materiality analysis commented on above, has identified the relevant aspects to be included in the Non-Financial Statement, taking into account their relevance for the company and for stakeholders.

TXT has identified the relevant aspects (§ 1.f Materiality analysis) to be included in the Non-Financial Statement, weighing them also in relation to:

- Type and complexity of its business;
- Markets served;
- Compliance with national and international standards and regulations;
- Presence of information in other sections of the Annual Financial Report, with particular regard to economic performance.
